

# CUTIMED® SORBION® SACHET

Whether especially high absorption capacity, impressive adaptability to contoured body parts or specially designed shapes are needed: the comprehensive assortment of **Cutimed® Sorbion® Sachet** offers the ideal product for any kind of wound. Easy to apply and including the unique Hydration Response Technology, the **Cutimed® Sorbion®** dressings are the right choice for managing highly exuding wounds.

## CUTIMED® SORBION® SACHET S

### Super-absorbent wound dressing

The classic form of **Cutimed® Sorbion® Sachet** is suited for many wound types and areas of application.

#### Advantages

- Rapid and secure absorption of exudate
- Fewer dressing changes necessary (up to 4 days wear time)
- High retention performance, even under compression
- Maintains a moist wound environment
- Expansion edge for a wide-spread wound contact
- Continuous gentle wound bed cleansing

## CUTIMED® SORBION® SACHET EXTRA

### Super-absorbent wound dressing for **extremely high levels of exudate**

Through its exceptionally high absorption capacity, **Cutimed® Sorbion® Sachet Extra** is excellently suited for wound conditions that require a particular wear time in addition to wound bed preparation.

#### Advantages

- Exceptionally high absorption capacity
- Fewer dressing changes necessary (up to 7 days wear time)
- Especially high retention performance
- Continuous gentle wound bed cleansing
- Also applicable under compression therapy

#### Application for:

##### Cutimed® Sorbion® Sachet S/Extra

- Venous leg ulcers/mixed aetiology ulcers
- Diabetic ulcers
- Pressure ulcers
- Secondarily healing, secreting laparotomy wounds
- Ulcerating carcinoma and similar secreting wounds

## CUTIMED® SORBION® SACHET MULTI STAR

Super-absorbent wound dressing in a **flexible form**

Through its flexible shape, **Cutimed® Sorbion® Sachet Multi Star** ideally adapts to body contours. Whether toes, heels, sacrum, chest, elbows or wound cavities, the dressing allows flexible application.

### Advantages

- Flexible form for a diverse application
- High exudate absorption capacity
- High retention performance
- Also applicable under compression therapy
- Adapts to all body contours

### Application for:

#### Cutimed® Sorbion® Sachet Multi Star

- Diabetic foot ulcers
- Exuding carcinoma
- Pressure ulcers
- Venous leg ulcers

## CUTIMED® SORBION® SACHET XL

Super-absorbent wound dressing for **large difficult-to-dress wounds**

Thanks to its form adapting to the body's anatomy and its special size, **Cutimed® Sorbion® Sachet XL** is ideal to treat large-surface wounds.

### Advantages

- More security through just one dressing
- Simplicity in treating large-surface wounds
- High wearing comfort for body parts that are difficult to treat
- Also applicable under compression therapy

### Application for:

#### Cutimed® Sorbion® Sachet XL

- Venous leg ulcers and mixed aetiology ulcers
- Pressure ulcers
- Abdominal dehiscence
- Exuding carcinoma

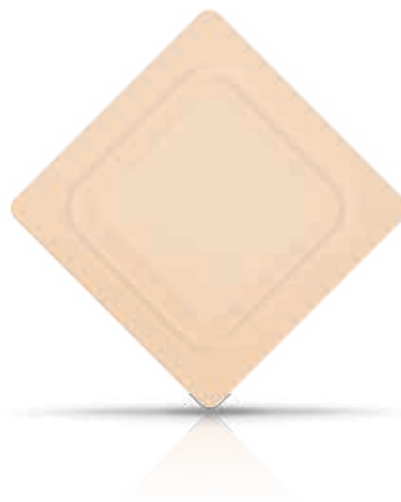

## CUTIMED® SORBION® SACHET BORDER

Super-absorbent, self-adhesive wound dressing

**Cutimed® Sorbion® Sachet Border** is utilized wherever a fast and easy application is required.

### Advantages

- Self-adhesive for simple application
- Secure retention of exudate
- Flexible and breathable outer cover
- Also applicable under compression therapy

### Application for:

#### Cutimed® Sorbion® Sachet Border

- Pressure ulcers
- Venous leg ulcers
- Diabetic foot ulcers
- Exuding carcinoma
- Post-operative wound dehiscence

## CUTIMED® SORBION® SACHET S DRAINAGE

Super-absorbent wound dressing **in a slit design**

This wound dressing was especially designed for the application with catheters, drainages, etc. Through its slit form, it fits particularly well to exit points, e.g. around tubes.

### Advantages

- Rapid and secure absorption of liquids
- High retention performance
- Moulds well to exit points e.g. around tubes

### Application for:

#### Cutimed® Sorbion® Sachet S Drainage

- For use with catheters
- For use with drainages
