

# CUTIMED® SORBION® SANA – THE ATRAUMATIC WOUND DRESSING

The **Cutimed® Sorbion® Sana** product range combines the benefits of **Cutimed® Sorbion® Sachet** with the additional benefit of an atraumatic dressing change.

Thanks to the special three-dimensional structure of the envelope, the contact area with the wound bed is minimized. Therefore, **Cutimed® Sorbion® Sana** is especially well suited for treating wounds where an atraumatic and painless dressing change is paramount. **Cutimed® Sorbion® Sana** is also ideally suited for wounds with uneven healing process (**epithelialization islands/drier wound areas**), in palliative care and for pain-sensitive patients.

## Application for:

All **Cutimed® Sorbion® Sana** products are super-absorbent, atraumatic dressings for the treatment of moderately to highly exuding wounds.

- Pressure ulcers
- Venous leg ulcers
- Diabetic foot ulcers
- Traumatic wounds
- Superficial burns
- Epidermolysis bullosa

# CUTIMED® SORBION® SANA

## CUTIMED® SORBION® SANA

Super-absorbent, **atraumatic** wound dressing

The classic form of **Cutimed® Sorbion® Sana** has diverse applications. Easy application and high wearing comfort set this wound dressing apart.

## CUTIMED® SORBION® SANA MULTI STAR

Super-absorbent, **atraumatic** wound dressing in a **flexible form**

Through its flexible form, **Cutimed® Sorbion® Sana Multi Star** ideally moulds to body contours. Whether toes, heels, sacrum, chest, elbows or wound cavities, the dressing allows flexible application.

## CUTIMED® SORBION® SANA XL

Super-absorbent, atraumatic wound dressing for **large difficult-to-dress wounds**

Thanks to its shape which adapts to the contours of the body and its special size, **Cutimed® Sorbion® Sana XL** is ideally suited for treating large-surface wounds that display an uneven healing progress (e.g. epithelialisation islands and dry wound areas).
